Dear George,

Clay and I have been invited by Google to talk about October's NotebookLM symposium for a Google AI for Education Webinar on Feb 26 at 2–3pm ET.

With your permission, I would like to talk about your brilliant presentation. I would like to share one screenshot from it. You can see it in the [slide deck](#).

And please feel free to [register for the event](#). See attached. We'd love to have you there, but you're not obligated to attend.

Thank you for your time and consideration!

Take care and be well,
