27-May-2026

Dear Xi Wang,

Thank you for agreeing to review Manuscript ID IJLEX-2026-021 entitled "The Native Speaker Intuition Blind Spot in Lexicography: A Contrastive Study of Chinese Separable Word Representation" for the International Journal of Lexicography. Please try your best to complete your review within the next 2 weeks if possible, and no later than 4 weeks.

In your review, please answer all required questions, and those optional ones that are relevant for this manuscript. On the review page, there is a space for "Comments to Editor" and a space for "Comments to the Author." Please be sure to put your comments to the author in the appropriate space.

To access the manuscript, click on the link below, which will take you right to the score sheet:

https://mc.manuscriptcentral.com/ijlex?URL_MASK=4da7ae8fd4aa45e48b5d7589d06cf22d

If you wish to view the manuscript and the review form simultaneously, click on the HTML or PDF icons – the manuscript will open in a new window. Leave the new window open, switch back to the main window, and open the score sheet by clicking on the Score Sheet tab.

Follow the instructions for reviewers provided in the ScholarOne Manuscripts site. I strongly encourage you to elaborate on your review in the space provided. Your specific comments will offer valuable feedback to improve future work. It is essential that you click the "Save" button if you wish to exit the review before you submit it to the Editor. Otherwise, none of the information that you have entered will be saved in the system. When you have completed your review and are ready to submit it to the Editor, click on "Submit."

All communications regarding this manuscript are privileged. Kindly let me know immediately if you suspect any conflict of interest, suspicion of duplicate publication, fabrication of data, or plagiarism.

Thank you for evaluating this manuscript.

This journal is a member of the Committee on Publication Ethics (COPE), so you may want to read their guidelines for reviewers at <https://publicationethics.org/sites/default/files/ethical-guidelines-peer-reviewers-cope.pdf>, which address important considerations, including:

- Please consult the Editor if you have a potential conflict, or decline this invitation if you have a known conflict, with the author(s) and/or the content itself.
- We rely on reviewers for conducting reviews in accordance with, and in order to uphold, the standards of the journal. While there are potential opportunities arising from generative AI, please ensure these types of tools and resources are not used as a substitute for your expert opinion and do not supersede your own judgment.
- Maintaining confidentiality both throughout and following the review process is important, so please do not share information about this manuscript, its content, or your review with any person or entity, including Large Language Models (LLMs) and AI tools.
